

## Automatic film applicators

# ZAA2600.HA

---

Automatic Film Applicator for use with Heatable Plates

---

### User experience

Multi-language menu guidance on the touch screen with storage of various application profile settings such as application length and drawing speed.

### Reliability

Reproducible, operator-independent results allow for storage of various application profile settings such as application length and drawing speed.

### Versatility

Thanks to its modular construction and compact design, it can be equipped with different kits for applications like scrub resistance, washability, crocking, and scratch resistance tests.

## Instrument Tech Specs
