

Head of Product Management - Software Solutions, Zurich/Singapore

You are a self-motivated and experienced digital native and eager in building new software solutions that are ready to redefine InspectionTech industry. As a Head of Product Management, based in Zurich or Singapore you will be part of the leadership team of a highly innovative and successful company!

What will you do

- You are responsible for the software platform solutions portfolio with a focus on machine learning and artificial intelligence, which is core to the company strategy, and lead a team of product managers in Switzerland, Singapore and Spain
- You identify winning product opportunities, define, develop and execute market and pricing strategy including product idea generation, strategic roadmap planning and product lifecycle management
- You develop go-to-market, growth hacking strategies and customer retention plans
- You drive product synchronicity across Marketing, Product, and Engineering departments to build phenomenal
- You translate new and changed market requirements into a product requirement in collaboration with the software development team
- You act as primary contact for all internal customer and stakeholder queries
- You communicate the software platform solutions strategy and goals to the team and the business
- You nurture and develop a high-performance team

What do we expect

- Strong and consistent track record of 10+ years in product management with SaaS, Augmented Reality, IoT or predictive analytics ideally in industrial context

- A compelling storyteller - able to convey executive presence with internal and external audiences
- Comfortable operating in a dynamic and fast-paced technology environment: a can-do attitude and the ability to execute with excellence and speed
- Tactical thinking, capability of prioritizing opportunities in highly ambiguous contexts and organize thematic work areas in deep detail to align vision and execution
- Proven ability to manage, mentor and develop cross-functional teams
- University degree in an engineering/IT discipline, any complementary business education is a plus
- Fluent language skills in written and spoken English, any other language is a plus
- Willingness and ability to travel up to 50%

About the #EagleTeam

Screening Eagle Technologies | Proceq | Dreamlab

We are on a mission to protect the built world with software, sensors and data. We hire talented problem-solvers with bold ambition who share our passion for inspection technology to sustain mission-critical assets and infrastructure for future generations. Our culture is creative, innovative and inclusive. We are a fast-paced, product-driven, growth company headquartered in Switzerland with our Singapore technology hub and a global mindset looking to lead a digital revolution in inspection.
