

UX/UI Design Team Lead (Singapore)

As the team lead, you will be responsible for defining the future of UX of inspecting software. Based in Singapore, you will work closely with product managers, software engineers, your design team and the head of UX/UI in an internationally distributed team set up.

What will you do

- Promote and run a user centred design (UCD) process;
- Coach and mentor the local design team;
- Plan and organize resources with the respective heads of software;
- Work as the local counterpart for the head of UX/UI;
- Present concepts, designs, research feedbacks to senior stakeholders and team members;
- Create simple and elegant solutions for complex tasks;
- Work with development team to define and implement designs;
- Assist project team members in product innovation.

- Able to understand and approach complex problems of the technical domain;
- Being committed to interdisciplinary collaboration and problem solving;
- Effective time management skills;
- Excellent communication, presentation and interpersonal skills;
- Keen interest in emerging technologies;
- Fluent in English.

What do we expect

- BA/BS degree in Design, Human-Computer Interaction (HCI), other relevant disciplines or 6 years of equivalent practical experience;
- Min. 8 years of practical experience in the everyday challenges of a UCD process and project work;
- Team lead experience is a plus;
- Experience in designing for mobile or other digital products;
- Familiar with a variety of UX methods;
- Strong affinity to good design;
- Experience in working with senior stakeholders and/or clients;

About the #EagleTeam

Screening Eagle Technologies | Proceq | Dreamlab

We are on a mission to protect the built world with software, sensors and data. We hire talented problem-solvers with bold ambition who share our passion for inspection technology to sustain mission-critical assets and infrastructure for future generations. Our culture is creative, innovative and inclusive. We are a fast-paced, product-driven, growth company headquartered in Switzerland with our Singapore technology hub and a global mindset looking to lead a digital revolution in inspection.
