

Assistant Software Manager (Singapore)

The Assistant Software Manager is responsible for managing agile development teams and leading the delivery of native mobile and cloud solutions for Screening Eagle and Proceq tools.

What will you do

- Lead whole life cycle of projects from project planning, execution, to project 'go-live' and production support;
- Collaborate with multiple functional teams at multiple geo locations to drive project delivery;
- Facilitate technical architecture and design discussions, review technical design and provide feedback to respective teams;
- Maintain project plan, track project delivery progress;
- Manage risks and issues, determine corrective actions for deviation from plans, conduct retrospectives while providing direction and advice;
- Provide regular project status report and management update;
- Work with Product Managers and manage software delivery roadmap;
- Motivate project team members, resolve conflicts and give constructive advice;
- Prioritise typical job responsibilities in conjunction with adhoc requests;
- Travel as and when required (up to 20%) mainly between Singapore and Switzerland.

What do we expect

- BA/BS Degree in Engineering, Information Technology or equivalent practical experiences

- Minimum 5 years of Project Management experience related to technology projects
- Proficient with Agile software delivery and CI/CD methodologies
- Good knowledge on software application architecture and design
- Good technical knowledge of iOS mobile application, web application and Cloud storage/computing/security
- Meticulous, attention to detail and effective communication – both spoken and written.

About the #EagleTeam

Screening Eagle Technologies | Proceq | Dreamlab

We are on a mission to protect the built world with software, sensors and data. We hire talented problem-solvers with bold ambition who share our passion for inspection technology to sustain mission-critical assets and infrastructure for future generations. Our culture is creative, innovative and inclusive. We are a fast-paced, product-driven, growth company headquartered in Switzerland with our Singapore technology hub and a global mindset looking to lead a digital revolution in inspection.
