

# Application expert with focus SAP B1 (Zurich)

In our dynamic working environment, you will work hands-on in multi-disciplinary teams and distribution partners, and act as the expert of the product. The dynamic working atmosphere offers opportunities to work on projects with global reach, while also cultivating fruitful collaboration with our innovative Swiss partner companies. You will be actively working in an agile and modular product development environment, contributing new accents and creating new solutions for most diverse industries.

## What will you do

- Administration and development of our business application portfolio around SAP B1 including B1i, MS Reporting Services, Analysis Services and interconnected applications such as warehouse systems, CRM with support from external vendors
- Maintain other Database Systems
- Collaborate with external application experts
- Testing and rollout of new versions
- Creating complex queries and reports
- Ensure smooth operations through data and interface monitoring and help our business team with data imports, export and analytics
- Collaborate in ERP, CRM and interface projects

## What do we expect

- Proven experience as a responsible person for international SAP B1 installations or SAP B1 projects is a must
- Accredited certification from an institution or government in IT, business data processing or similar
- Excellent SQL programming skills to create complex queries

- Proficiency with C# and it's coding environment
- Basic knowledge in ETL, Microsoft Reporting Services and Microsoft Analysis Services
- Experience in improving supply chain, sales, accounting processes with SAP B1
- Strong communication and fast learning proficiency
- Reliable and able to work under pressure
- Very good in German and good English skills

## About the #EagleTeam

Screening Eagle Technologies | Proceq | Dreamlab

We are on a mission to protect the built world with software, sensors and data. We hire talented problem-solvers with bold ambition who share our passion for inspection technology to sustain mission-critical assets and infrastructure for future generations. Our culture is creative, innovative and inclusive. We are a fast-paced, product-driven, growth company headquartered in Switzerland with our Singapore technology hub and a global mindset looking to lead a digital revolution in inspection.
