

# Graphic Designer (Malaga)

As a member of the Global Marketing team, you will part of the development of the brand that is changing the inspection space. We're looking for a multi-disciplined designer who can help solve creative problems and deliver top-quality visuals with consistent brand representation in mind.

## What will you do

- Conceptualize, execute, review and art-finish designs for different purposes and formats, including digital and social marketing, creative campaigns, content, events, product branding, and brand identity assets
- Champion and monitor the correct use of the brand guidelines
- Collaborate with different stakeholders around the world to develop powerful visuals
- Contribute with innovative ideas to help solve design problems and further shape the brand aesthetic
- Be part of the core next-generation web project team

- Efficiency and ease working with multinational and remote teams
- Experience working in technical environments and teams is an advantage
- Designing anything from digital ads to print collateral, creative content, and presentations with an equal level of enthusiasm and craft
- A positive attitude and strong work ethic
- Ability to manage multiple projects and deliver high quality work within tight deadlines

Applications in other language but English and without a strong design background and portfolio link will not be considered.

## What do we expect

- 3+ years of relevant professional experience, such as working with a design firm, advertising agency or internal creative team
- English fluency
- Qualification / Degree in Graphic Design
- Proficiency in Adobe Creative Suite (Photoshop, Illustrator, and InDesign a must) and Microsoft Office
- Exceptional mastery of typographic, color and composition with sharp attention to detail
- A good grasp of responsive design principles
- Capability to provide print- and/or dev-ready artwork, with pixel-perfect attention to detail oversee the production of print material

### About the #EagleTeam

Screening Eagle Technologies | Proceq | Dreamlab

We are on a mission to protect the built world with software, sensors and data.
