

Technical Project Manager

We are looking for an experienced agile Project Manager with a technical background, which can support our CTO in running the various project teams throughout the company in our international environment.

What will you do

- Reporting to CTO
- Provide support with budget estimation and planning definition of the different R&D projects
- Develop accurate, comprehensive, and regular reporting about all R&D projects and about available resources
- Together with project leaders predict project blockers within the department or on the interphase departments and suggest solutions
- In combination with other stakeholders, ensure technical documentation for all R&D projects are complete and duly maintained up-to-date (e.g. server, Confluence, etc.)
- Coordinate with project team leaders in all R&D locations
- Together with the CTO continuous monitoring of the Product Development Process, identify process blockers and propose improvements
- Contribute with product testing definition and execution
- Administrative support in relation to the Technology Department

What do we expect

- Master of Science in Electronics, Electrical, Telecommunications or related Engineering
- Agile project management certification, PMI-ACP, IAPM or similar
- Demonstrated understanding of agile Project Management processes, strategies, and methods
- Experience in working with agile teams

- At least 5 years international professional experience in management and planning of R&D projects in the field of electronics, sensors or similar
- Excellent time management and organizational skills and experience establishing guidelines in these areas for others
- Strong sense of personal accountability regarding decision-making and supervising R&D teams
- Ability to predict challenges and seek proactively head-off obstacles
- Assertive, ability to set priorities and strong communication skills
- Agile and focused working style
- You are used to working in an innovative, international high-tech environment, corporate and business language is English, German would be advantageous
