

Lead Inspection Engineer, Singapore

The Lead Inspection Engineer is a critical role to help develop and test Screening Eagle's new software and hardware inspection technologies for the built environment in Singapore and abroad.

What will you do

- Develop and manage a team of civil engineers, surveyors and technicians to carry out on-site asset inspections
- Lead the use of Screening Eagle's software and hardware suite for inspection projects
- Develop and lead training for customers on Screening Eagle's products and inspection best practice
- Lead, prepare and manage technical proposals for authorities and asset owners
- Work with our development team to continuously provide industry know-how and user feedback

including but not limited to BCA Periodic Structural Inspection (PSI), CONQUAS and façade inspection

- Experience in concrete non-destructive testing (NDT)
- Passionate about new technologies in inspection, mobile computing, digital twins, AI and robotics
- Strong networking, interpersonal and communication skills
- Familiar with AutoCAD, Revit or other BIM/3D software
- Knowledge of inspection codes in overseas markets such as Europe and North America
- Experience in winning and managing inspection projects in the public and private sector

What do we expect

- A practicing registered professional engineer in Singapore
- Minimum 10 years of related civil and structural experience, preferably in building inspection, structural design and project management
- Good knowledge in the latest Singapore codes related to asset inspection and maintenance,

About the #EagleTeam

Screening Eagle Technologies | Proceq | Dreamlab

We are on a mission to protect the built world with software, sensors and data. We hire talented problem-solvers with bold ambition who share our passion for inspection technology to sustain mission-critical assets and infrastructure for future generations. Our culture is creative, innovative and inclusive. We are a fast-paced, product-driven, growth company headquartered in Switzerland with our Singapore technology hub and a global mindset looking to lead a digital revolution in inspection.
